### Exhibition Overview

After eight years of relentless effort, China Titanium Valley International Titanium Industry Expo (TIEXPO) has grown to become the largest industry exhibition in the world, and the exhibition's content spans the entire industrial chain. It has become a go-to platform for brand promotion, economic and trade cooperation, product sales, and information exchange, as well as an integrated trade exchange platform that brings together industry, universities, research, and application. The exhibition has long remained true to its original intent of aiding industry growth; it follows the market's demand as its guide, integrates industry resources deeply, innovates its exhibition format, continuously raises the standard of its operation, and grows in influence and popularity every year. Nearly 206 units from more than ten nations and regions, including China, Germany, the United States, Russia, Italy, Japan, South Korea, Hong Kong, and other regions, participated in the exhibition in 2021. There were 20,600 visitors, and the exhibition space was 16,000 m<sup>2</sup>.

The "5th China Titanium Valley International Titanium Industry Expo" will take place in Baoji from April 19–22, 2023. It is sponsored by China Non-Ferrous Metals Industry Association and the People's Government of Baoji Municipality in order to advance the high-quality development process of the Ti industry and promote trade cooperation and exchanges in Ti industry under the new circumstances. TIEXPO will fully showcase the most recent advances in science and technology, high-end application products, and creative and forward-thinking ideas for the Ti industry. In parallel, there will be the "2023 China Titanium Annual Conference and Titanium Industry Summit Forum." Now, we cordially invite guests, exhibitors, and visitors from both home and abroad to reunite in "China Titanium Valley" to exchange fresh concepts for the growth of the Ti industry and co-write a new chapter!
